## ARTICLE III. – ZONING DISTRICTS AND BOUNDARIES

...

### 3-200 A-L Agricultural Limited District

#### Sec. 3-201. Purpose of the district.

The purpose of this district is to establish an exclusive district for agriculture and forestry where few other unrelated uses are permitted or encouraged, including residential uses. This district, unlike traditional agriculture districts, is intended primarily for agriculture and forestry uses recognizing that modern agriculture and forestry practices are heavily mechanized with usage of a variety of chemicals during production and harvesting and are therefore not desirable places for residential uses, just as an industrial park is undesirable for a residence. As such, agriculture and forestry in this district is "king" and the "right to farm" is clearly established as public policy. However, certain standards are established to protect and buffer other property owners in this district and owners in adjoining districts from particularly intensive farm operations.

While preserving the more valuable, productive and intensive operations, it is important to allow a landowner to make some reasonable economic return from the use and sale of their land. However, land divisions for residential use are substantially limited and buffers with adjoining farm and forestry properties are further emphasized. In addition, basic community objectives such as preserving prime agricultural lands and discouraging strip residential development along the primary and secondary roads in the county continue to be important objectives.

Finally, it is the purpose of this district to be applied to areas in the county where the board of supervisors has established other programs that are supportive of agriculture and forestry. This might include adoption of agricultural and forestal districts, use value taxation, designation by the state of Century Farms and similar programs that are a benefit to the farm community.

### **3-300 - A-R Agricultural-Rural District**

#### **Sec. 3-301. Purpose of the district.**

The purpose of this district is to protect and conserve agricultural and forest lands in large enough tracts that will have the greatest probability of preserving the rural character and heritage of the community and serve as a working-and-living landscape in perpetuity. These agricultural and forest lands, and in particular the family farms, have framed the way of life and local economy for generations and should continue to play an important role in the county.

While preserving the rural heritage is critical, it is also important to enable each landowner with the ability to make a reasonable economic return from the use and future use and sale of their land. This should be accommodated without compromising basic community objectives such as preserving prime agricultural lands and discouraging strip residential development along the primary and secondary roads in the county. And while some uses might best be located in a rural area due to their characteristics, not all uses are necessarily appropriate throughout the community or this district. Therefore, many uses require additional approvals from the county before they can be established. In addition, large residential developments are prohibited. Ultimately, however, those areas devoted to residential and other non-rural uses should meet the needs and desires of those who choose to live and work in a rural area.

### **3-700. B-1 Local Business District**

#### **Sec. 3-701. Purpose of the district.**

The purpose of this district is to provide primarily for low intensity retail shopping and personal service uses, developed either as a unit or in individual parcels, to satisfy those basic needs which occur daily or frequently and so require commercial facilities in close proximity to residences or which may generally be compatible with a rural or residential area. To ensure this compatibility, the size and architectural designs should also be reviewed for compatibility with the surrounding residential and rural community.
