#### **4-610 Water or Sewer Pumping Station**

A. General Standards.

1. Minimum lot sizes. In any zoning district in which Water or Sewer Pumping Stations are permitted, the minimum lot size (area, width, depth, and frontage) may be reduced as part of the administrative approval/zoning permit issuance, as long as other provisions of this section are achieved.
2. No Water or Sewer Pumping Station shall be located within 100 feet of an existing residence.

3. Water and Sewer Pumping Stations shall be designed and constructed to:
- i. minimize noise and ensure that there is no continuous audible effect on residential or commercial properties,
  - ii. be compatible with the character of the surrounding area, and
  - iii. be completely enclosed, so that these facilities or structures will not adversely affect the health, safety, or welfare of the general public. The applicant must be able to provide reasonable assurance that this will be the case before a zoning permit is issued.
