Surry County Economic Development Website Launches

SURRY, VA – The Surry County Economic Development office is pleased to announce the launch of <http://www.econdev.surrycountyva.gov>. The new webpage is an information-sharing and marketing strategy for Economic Development to further promote the **“Take the Rural Route to Success”** theme for promoting and marketing Surry County. The site will be further enhanced to (1) connect and inform departments, businesses, local, regional and state agencies and citizens about Surry Economic Development activities and initiatives, (2) serve as a resource to individuals looking at Surry for economic opportunities, (3) spotlight local business who have invested in the community and (4) promote the many assets of the County that make it a great place to live, locate and grow business.

In order for the County to grow and prosper, community engagement, collaboration, strategic alliances and partnerships from the education, public and private sector is vital. We look forward to having a site that will highlight quality of life amenities, the County’s workforce, great schools, the business park, other potential development sites, and the great people that contribute to the charm and character of the community. Each of these assets helps communicate a sense of place important to a successful economic development platform when seeking new opportunities.

You can help by submitting your ideas or photos to the Economic Development office:
